AI / Full Stack Engineer

Building AI-powered and full-stack applications with React, Next.js, FastAPI, LangGraph, and modern databases.

Education

Bachelor of Technology (B.Tech), DEPSTAR, CHARUSAT University 2024 – 2028

CGPA: 7.91

Technical Skills

Languages: Python, JavaScript, TypeScript, C++, SQL
AI/LLM: LangGraph, LangChain, LangSmith, RAG
Backend: FastAPI, Node.js, REST APIs
Frontend: React.js, Next.js, Tailwind CSS
Databases: PostgreSQL, MongoDB, Supabase, pgvector
Tools: Git, GitHub, Postman, Vercel

Experience

Full Stack Developer Intern, Bull Agritech Dec 2025 – June 2026

- Developed responsive production interfaces using **React.js, Next.js, and TypeScript** for business applications.
- Built reusable components and data-driven dashboards supporting **agricultural procurement workflows**.
- Integrated **REST APIs** to connect frontend interfaces with backend services and manage application data.
- Contributed to feature development, bug fixing, and frontend performance improvements across production applications.

Projects

SupportFlow AI — Multi-Agent Customer Support Platform

- Built a **multi-agent customer support platform** using LangGraph with **6 specialized AI agents** for automated support workflows.
- Developed a **RAG pipeline** using Supabase PostgreSQL and pgvector for fast, knowledge-grounded responses.
- Implemented **agent routing, shared state, and conversation memory** with LangGraph for context-aware support.
- Integrated **Gmail, Telegram, Resend, FastAPI, and SSE** for multi-channel support and real-time AI responses.

CyberKavach — Club Management Platform

- Developed a full-stack platform using **PHP, MySQL, and JavaScript** for club events, attendance, certificates, and member activities.
- Built role-based workflows for **students, members, and coordinators** to manage registrations and event operations.
- Designed dashboards for **event management, attendance tracking, approvals, certificates, and analytics**.
- Appointed as **Web Development Coordinator** with the platform planned for university-wide use by students and club members.

Hackathons & Competitions

- **Runner-up — GDG Sprintathon Hackathon**, Top Contributor.
- **Team Leader — Odoo Hackathon 2025 & 2026**, advanced to the finals among top teams from 20,000+ participants.
- **Winner — TCS Technology Day 2026 Hackathon**, built an advanced RAG-based student assistant in 2 hours, competing among 30 teams.

Achievements & Certifications

- **NPTEL DBMS (IIT Kharagpur) — Elite (Top 1%), Score: 85%**
- Solved 170+ problems on LeetCode.
- Certifications: Google Data Analytics, Meta React, Core Java, PHP.
- Certificate Repository
